COMBINED SUPPORT SERVICES

TEMPORARY CCTV

- Rapid deployment capability
- Video Verification
- Remote Monitoring
- Guard Enhancement
- Minimum 4mp quality imagery
- Proactive, automated crime prevention
- Ideal for construction sites, events, and vacant properties
- Flexible positioning and relocation as needed

QUICK-DEPLOY SECURITY SOLUTIONS FOR ANY SITE

Temporary CCTV systems offer a flexible and reliable solution for short-term security needs. Perfect for construction sites, events, or vacant properties, these systems can be rapidly deployed to protect assets and maintain site safety. They utilise mains, battery or solar power options for uninterrupted operation and can be fully integrated with alarm systems for real-time monitoring.

Video footage and alerts are transmitted directly to **Combined Support Services'** control room, enabling immediate verification and response to incidents.

Designed for both practicality and effectiveness, temporary CCTV systems provide peace of mind, ensuring that even short-term or vulnerable sites are continuously monitored and secure.

COMBINED SUPPORT SERVICES

TEMPORARY CCTV - PRODUCTS

MODULAR CCTV TOWER

360-DEGREE COVERAGE

A high-performance solution for locations where mains power or internet is not available. Four high-resolution cameras provide wide site coverage, supported by two-way audio deterrence. Fully off-grid and solar-powered with wireless video transmission.

IDEAL FOR: Construction & development sites | Brownfield | Remote & off-grid | Vacant & void

FIXED WIRED CCTV CAMERA

UP TO 16 CAMERAS

A fixed installation with an on-site digital video recorder offering up to 30 days' recording and support for wider site coverage. A dependable long-term option where continuous surveillance is required.

IDEAL FOR: Commercial & residential security | Warehouses | Parking | Retail | Perimeter monitoring

STAND-ALONE SOLAR CAMERA

WIRE-FREE & MOBILE

A mobile outdoor surveillance option for locations without Wi-Fi or mains power. Smart motion detection, pan-and-tilt coverage, rechargeable battery power and optional solar charging allow fast deployment and easy relocation.

IDEAL FOR: Vacant & void | Construction sites | Remote or rural locations | Events & short-term
